Summary

Recent Graduate in CS, detail-oriented Frontend Developer and Full Stack Engineer with comprehensive expertise in modern web technologies. Proven ability to design and develop scalable, user-centric web applications and dashboards, with hands-on experience in backend frameworks like Django. Skilled in agile methodologies, cross-team collaboration, and delivering clean, maintainable code to meet project goals.

Education

Chandigarh University, India, BE in Computer Science | GPA: 8.37/10.0

Aug 2021 – June 2025

Skills

- **Programming Languages:** HTML5, CSS3, JavaScript, PHP, Python, Java
- **Frontend Frameworks & Libraries:** React.js, Tailwind CSS, Next.js, Bootstrap, Wordpress
- **Backend Frameworks & Technologies:** Node.js, Express.js, Django, Flask, PHP
- **Databases:** MySQL, MongoDB, Oracle RDBMS, SQLite
- **Tools & Methodologies:** Git, Agile Methodologies, Project Management, Trello, XAMPP
- **API & Authentication:** RESTful APIs, JWT Authentication, GraphQL
- **UI/UX & Design:** Figma, Prototyping, Responsive Design, User Testing
- **Additional Skills:** Dashboard Development, Cross-Team Collaboration, Data Visualization (Chart.js, Power BI)

Training & Internship

Web Developer | Training | Coincent | Remote

Feb 2022 - March 2022

- Developed foundational skills in responsive web design and modern web standards.
- Successfully completed intensive training in Web Development focusing on HTML5 and CSS3 fundamentals.

Web Development Intern | Coincent | Remote

Oct 2023 – Dec 2023

- Developed a PHP-based doctor dashboard project, featuring separate dashboards for patients, doctors, & admins.
- Applied advanced HTML5, CSS3 & JavaScript techniques for clean and responsive layouts.
- Demonstrated dedication, hard work, and diligence throughout internship tasks.

UIX Designer | Grownity | Remote

Aug 2022 – Dec 2023

- Reduced time to render user buddy lists by 75% by designing a user friendly layouts
- Developed scalable web solutions tailored to user needs.

Projects

Employee Task Management Dashboard | Link: EMS

Creds: admin@me.com (123), employee1@example.com (123)

- An interactive tool for task allocation and progress tracking in corporate environments.
- Built a full-stack solution with React, Node.js, and MongoDB.
- **Tech Stack Used:** React.js, Node.js, MongoDB, Figma, Tailwind CSS |

Doctor's Appointment Dashboard

- Developed platform for managing doctor appointments, patient history, and prescriptions.
- **Tech Stack Used:** HTML5, CSS3, JavaScript, PHP, MySQL, Figma, Prototyping

Job Application Tracker (Django) | Link: Job-Tracker

- Built a web-based system to track job applications with CRUD operations and status updates.
- Integrated **Chart.js** for visual analytics showing application trends and status distribution.

- **Tech Stack Used:** Python, Django, SQLite, Chart.js, Tailwind CSS

AI Powered Mock Interview and learning Application [Building] | **Link:** [github](#)

- Full-stack application delivering AI-powered mock interview simulations.
- **Tech Stack Used:** React.js, Node.js, MongoDB, Vapi AI, Figma, Tailwind CSS

Certifications and Hackathons

- Microsoft certified in Web Development through **MTA** || **Certification**
- Google certified in UI/UX Designing || **Certification**
- Coincent Web Development Trainee || **Training Certification**
- Coincent Web Development Internship || **Internship Certification**
- IBM Developing Front-End Apps with React || **IBM Certification**
